Debate – Cloud Computing

Vijay Dialani, PhD

Boise State University

vijaydialani@boisestate.edu

The cloud is inherently redundant and failsafe

Cloud Scales Automatically

Its better to buy hardware then to use cloud

Cloud computing is cheap

Cloud is not well suited for Data Transfer

Cloud Performance is Unpredictable

Cloud Scales Automatically

Hosted cloud solutions will always be more reliable then in-house cloud solutions

Clouds are a security disaster waiting to happen

Cloud is suited for agile organizations only
