# Intro To Data Visualization

Nikesh Balami | OKFN Nepal

www.neekes.com.np

Why Visualization?

- Communication

- Exploration

Let the Visualization Explain

- What are we Showing?

- Why are we Showing?

Because

- Data is weightless: The visualization gives it weight.

- Data Visualization let's you spot the Aha!

- Story telling is not the point: A good visualization should let the data stand on its own.

Colours

- Use One

- Highlight what is Important

- If you have more than one: The color has to be additional information

Free Visualization Tools

- Datawrapper

- Infogram

- SVG Crowbar

Some Cool Visualization Example

Now Lets Go through
